

VISUALS INFORMATION AND SUBMISSION CHECKLIST

If you are sending 35 mm slides:

- Send 1 full view of the completed quilt and 1 detail view
- Indicate the top of the slide by writing “top” at the top edge or drawing an arrow pointing to the top of the slide
- Label each slide with your name, the title of the quilt and the size
- Indicate the front of the slide by writing “front” on the front of the slide

If you are sending digital photos:

- Send 1 full view of the completed quilt and 1 detail view
- ALSO send a printed photograph of the full quilt via a mail service
- Identify each photograph with your name, quilt title, and size
- Digital images may be submitted via **EMAIL** or on a **CD-ROM**, with no modifications—this includes color correction. You may crop the background **ONLY**.
- We recommend using a minimum 4 MP (megapixel) camera, on highest resolution setting, saved as a JPEG file at 300 dpi. Each image should be 1800 pixels wide x 1200 pixels in height or 6”x4”. The images should be RGB (or sRGB, if you have the option). No CMYK images accepted. The images should be saved at the highest resolution “baseline” or “standard jpeg” setting (do not save as a progressive jpeg). Lower megapixels and resolution settings can produce poor results that can eliminate a quilt because its color, design, and detail can't be viewed clearly.
- If selected, the entry arrives and it is determined to differ significantly from the digital image submitted for jurying, the committee reserves the right to reject the entry and override the jurors' initial decision. The decision as to whether the difference is significant is entirely the prerogative of the committee.
- Be sure to "finish" (complete) the CDs when you write them, so they can be opened. You may place multiply quilts on ONE CD. Please label the CD with all the quilts on the CD. Label each image with the title **ONLY** on the full view, and title and the word **DETAIL** on the close-up view.
- Label each disk with your name and title(s) of the work
