What DO you do with all those leftover scraps? Crumb quilts are the ultimate scrap fabric projects because you are using what you already have in order to ***create your own fabric!*** There is no one set way to use “crumbs” - the tiniest amounts of scraps (strips, squares, trimmed triangles, funky sizes, etc.) that you have - the ones you usually throw away because you don't know what to do with them! Remember, those crumbs (of fabric) cost just as much per yard as the original fabric you bought that they came from! NO rules here except to use a ¼” seam allowance. Add fabric to connect your crumb quilted strips in different ways! Machine quilt each strip by sewing 1/4" multiple times on each side. Create any size quilt you want by adding more blocks horizontally and/or vertically!

Finished block size: 10” square

Number of blocks needed: 12

Finished quilt size: 30” x 40”

Materials List

Gallon bag of crumb fabric – the more the merrier!

1 ½ yards of fabric (OR twelve 12” squares of background fabric – all the same or different (1 per block))

100% cotton thread (light or medium grey, white and black)

Rotary Cutter (put in a new blade), acrylic ruler of your choice; and cutting mat

Basic sewing supplies
