IT IS ABSOLUTELY NECESSARY TO HEAVILY STARCH AND PRESS YOUR FABRIC BEFORE CLASS. You are stabilizing the fabric against the stretching that occurs when cutting and sewing bias/curved edges. This is an important part of the process to achieve successful curved seams. When I use spray starch, I spray and PRESS the fabric 3-4 times. If using yardage, I mix liquid starch 1:1 with water in a plastic tub and dip the fabric in the starch+water mixture until it is wet. Squeeze out the excess – wringing out the fabric can leave heavy creases that are difficult to press out -- and toss it in the dryer. Then PRESS.

OTHER SUPPLIES

- * Basic sewing supplies (scissors, seam ripper, pins, etc.)
- * Glue pen with a few refills
- * Neutral thread or threads that coordinate with your fabric choices
- * 28mm rotary cutter with new blade the smaller size is necessary to cut the small curves
- * Medium size cutting mat. If you have a rotating mat, bring it!
- * 6"x12" and 6"x18" rulers
- * Fine point Sharpie marker
- * Spray starch not Best Press. We are going for stiff fabric. I use Faultless heavy finish.
- * Foam core or flannel covered board to use as a design wall
