

APPLIQUE PAULA'S WAY TAUGHT BY PAULA GOLDEN

How are we to continue to appliqué when our body changes (hands get stiffer, eyes need bolder lines)? Learn Paula's sure-fire way of needle turn appliqué that will give you sewing longevity. In this workshop you will learn how to hold your needle, stretches to relax your hands and arms and a method that will introduce you to the beauty of hand applique or provide another tool in your applique toolbox. A beautiful stemmed rose is created in the workshop for you to use in a future project.
