

Kitchen Garden Quilt with Lisa Thorpe

Kit contains 6 Fruit & Veggie block prints on cotton, 15 color set of fabric dye pastels, two 9x12 prefused muslin, two 9x12" black cotton, 1 ball white pearl cotton thread, chenille needle size #24. This is enough to completely finish 2 of 6 blocks (see note below if you want to have materials for remainsg 4 panels at hand) *\$25 materials fee*

Kitchen Garden Quilt is an exploration of fabric coloration and stitch to create a personal unique art quilt with a tasty theme. Class will begin by colorizing fruit and veg block prints with fabric dye pastels provided in your kit. Then let the stitch begin! Lisa will teach a stitch technique that borrows from the traditional Japanese styles of boro patches and sashiko stitch and sprinkles in a bit of grandma's crazy quilting too. You get to choose if you want colorful patches look, a solid color background so the stitches shine or some of both! Your finished blocks can be framed or finished individually or stitch together in any combination to create a larger art quilt. Lisa will show you lots of examples and share finishing ideas and techniques too.

To complete your 6 kitchen garden art quilt blocks you need:

- 4 – 9x12 pieces of cotton, color of your choice or enough small scraps of fabric to cover six 9x12 rectangles with patches of print or solid cotton fabric.
- pins and or glue stick.
- scissors or rotary cutter (pinking shears are nice but not required)
- Optional: disappearing fabric marker such as Pilot FriXion or Fabric Chalk such as Dritz Quilting Chalk Cartridge set is good if you want to mark precise stitch lines – I'll have some to share -you can also stitch freehand with no marking (I do both)

NOTE: because of electric needs at venue irons are provided - you might like to bring a small ironing pad if you have one - we will share pads and provided irons to make it work
