## Painting and Drawing on the iPad

**Supplies:** iPad or other tablet, passwords for App store, charging cables; apps downloaded before session.

See this link to see if you can update the OSiPad or if your iPad is obsolete <https://www.lifewire.com/obsolete-ipad-4138570>. If you can't update you most likely can still access most of these apps and instructions, but the tutorials and videos may not be completely the same as what you see on your screen. If you are using a tablet other than an iPad email me for alternatives.

Be sure you have photos accessible on your iPad in your Photo Library. If you have an iCloud account, you can have access to all your photos. Here is how to get photos into your iPad from a desktop computer if you are not using iCloud or another web-based storage.

For OSiPad 15 information see the official IOS iPad manual here: [User Guide IOS 15](#). Other versions of the iPad IOS also have their own user guides.
