

**Sashiko & Boro – Study and Stitch
with Carol Ziogas of Kimonomomo
International Quilt Festival 2023**

Boro roughly means “rags” in Japanese. In this class we will be hand piecing and stitching individual scraps of fabric into a larger whole.

The point is to work within limits and see where it takes you. Put yourself in the mindset of a stitcher who has just a small stash of fabric and consider how that might change your approach to the project.

The class kit includes enough for you to make a placemat or other similar-sized project. Add more fabric and make it a much larger project later if you wish, but let's start small and see how it feels first.
