
Caffeinated Quilting

Sue Heinz

Welcome! I'm so glad you are joining me for a workshop of learning and laughing together!

You'll be drawing for the entire class time, learning my unique designs that are all based on three shapes: a leaf, a pebble and a swirl.

Drawing classes

- Allow me to teach many more designs than I would be able to with machines in the room. Expect to be blown-away by the number of designs you will learn!
- They allow everyone to join us, no matter what type of machine you sew on (longarm to domestic) - everyone's welcome.
- There's no need to haul lots of supplies!
- Don't be swayed into thinking drawing classes are any less valuable than a classroom with machines. In fact, students are able to learn more quickly and confidently if they learn first to draw the designs before going to the machine.

Supply List

- A 0.7mm mechanical pencil (like the Bic® Brand found at Target or Walmart), and a ballpoint pen, each with a **comfort grip**.
- 2-4 sheets of unlined paper for notes and a few drawings (printer paper works well). Most of your designs will be drawn on handouts, which will be provided.

Have questions? I'm here to help! Contact me via my website, SueHeinz.com

The designs taught are based upon Sue's book by the same name
