FLOATING FOREST ART QUILT

Applique Collage Class Project

In this class you will create an impressionistic fabric collage of a forest of bright Aspen trees (or Birch trees) and brilliant fall foliage.

Everything you need to complete this class in three hours is included in the kit. There are a variety of rich fall theme fabrics, fused and ready to become your palette.

The trees actually float away from the back of the quilt creating a surprising and unique art quilt. Let your imagination run free as you create your floating Fall Forest.

The Kit: Everything is included in the kit to create the stunning autumn floating forest. The kit contains all prewashed and fused fabric for the trees, sky, ground and fall colors suggesting falling leaves.

All the written directions and supportive pictures are included.

The backing and batting are fused and ready for you to lay down fabrics creating a fall forest.

YOU NEED TO BRING:

Pen or pencil and notepad for notes.

A glue stick in case fabric snippets need a little help sticking to the background.

Scissors to cut fused fabric.

Optional tweezers to move fabric snippets around on your background.

Blue fabric (two colors of blue) if you want to add a lake or stream to your forest art quilt.

You can bring additional fabrics, **fused** to add to the included fabrics.

Quilt Festival Education Department provides irons and ironing surfaces in all classrooms.

Feel free to video my demonstrations and take pictures during the class.

I will answer all your questions in class, or you can reach me at Rita@RitaLynneStudio.com
