

Machine Sewn Bindings by Debbie Wendt

Bindings done quick and easy, all by the sewing machine. Are you wanting to get your bindings done all on the sewing machine, no hand sewing? This is for you! Learn how to make, apply and machine sew a binding so it looks like it has a hand sewn finish. Plus adding a faux piped binding to add a pop of color and pizzazz to the edges of your quilts. Finishing the binding tail ends and making perfect mitered corners for a quilt with square corners will be done using Brilliant Bindings.

#1 – Attach a machine sewn binding to a Large Casserole Hot Pad that can be turned into a Casserole Cozy.

#2 - Add a faux piped binding finish to a composition book cover.
