Length: 6 hours

Class Description:

Ready to turn a simple denim jacket or shirt into a one-of-a-kind statement piece? In this creative, hands-on workshop, students will combine vibrant Direct-to-Film (DTF) iron-on designs with fabric paints, pencils, and markers to create bold, personalized wearable art.

You'll learn how to confidently choose and size artwork for garments, position designs for maximum visual impact, and apply transfers using professional techniques. Then, take your piece to the next level with guided coloring and embellishment methods that bring depth, dimension, and personality to your design.

Special attention is given to working successfully on textured fabrics like denim, blending colors beautifully, and ensuring your finished artwork is both durable and washable.

Whether you're creating a standout jacket, refreshing an old favorite, or exploring new artistic techniques, you'll leave class with practical skills—and a garment that's uniquely yours.

Skills You'll Gain:

- Selecting and sizing DTF artwork specifically for garments
- Designing for placement and visual balance
- Painting and blending techniques that adhere beautifully to denim
- Ensuring long-lasting, washable results
