

Olivia, my crazy caramel! Or Dinah, the Cat!

Our pets are four-legged angels who accompany us throughout our lives. So how about a lesson showing how to properly design quilting for these furry friends? Olivia is my caramel...

And Dina is my autistic cat... yes, that's right. And she's perfect... and full of quirks. So, I decided to make a wholecloth quilt of her, and show how we should quilt these furry friends who inhabit our homes and our souls. Anyone who loves cats and dogs will understand what I'm saying.

But all attention will be dedicated to the eyes, fur, and senses of quilting. What are the right designs, threads, and options we have for backgrounds? A delightful and informative lesson. Lots of information about techniques, designs, threads, batting, and more. This way we will create our designs, with total freedom of expression, echoing organic quiltings. A therapeutic class, with lots of shine, content, and a new way to create your wholecloth.

Student supply needs

Safet Securid pins (best quality)	1 box	<i>If you have any questions, contact me on WhatsApp, I'll be happy to help!</i>	
Seam ripper	1		
Tweezers	1		
Paper Scissors	1
